

WHY YOUR PRACTICE NEEDS TELEMEDICINE DURING COVID-19

Show your patients you're there for them and create additional revenue by adding telemedicine.

Staying in touch with your patients has become more important than ever.

✓ **Triage Emergencies**

✓ **Keep Followup Appointments**

✓ **Provide Alternatives to Cancellations**

✓ **Retain Your Patients**

WHY TELEMEDICINE?

TELEMEDICINE INCREASES ACCESS TO CARE.

With everyone stuck at home and at-risk patients afraid to leave, our access to health care is limited in an unprecedented way. Many patients are ignoring injuries or pain because they are not supposed to leave, and not sure how to consult a doctor otherwise.

TELEMEDICINE ENHANCES FACE-TO-FACE MEDICINE.

In a time of panic and tragedy, we remember those that were there for us and forget those that weren't. Maintaining your relationships with patients and providing comfort builds patient loyalty and dramatically increases the odds that they return to your practice when this is over. Many doctors will be surprised to find patients won't return to their practice because they found care elsewhere during this time.

TELEMEDICINE REDUCES HEALTH CARE COSTS.

Many practices are only open for emergencies, which creates the unfortunate mindset that patients have to either fake an emergency or ignore pain. "Emergencies" that aren't critical waste time and resources. And ignoring early signs of pain leads to much costlier treatment later, when the condition worsens.

TELEMEDICINE BUNDLE

\$199

"Using telemedicine has enabled me to **grow my private practice** and offer therapeutic services to clients throughout California. The technology is *excellent* and very *user friendly*."

THE TELEMEDICINE SOLUTION

We partnered with doxy.me to provide an easy telemedicine solution that can easily be integrated on any website.

- No downloads or software
- Easy to use
- Accepts payment
- Mobile friendly
- HIPAA-compliant
- Easily transfer files

LIVE CHAT

tawk.to

The COVID-19 pandemic has created an enormous burden on phone lines, with patients calling at all hours. Provide your staff (or you) some relief by taking messages and chatting right through your website. Allow visitors to ask basic questions, even during off-hours, with a Live Chat widget. A great use for staff members stuck at home!

FEATURES:

- Real time monitoring
- Answer chats from your mobile device
- Take a message when you're unavailable
- Increase engagement on your website

SAFEPAY WITH PAYPAL

We partnered with PayPal to bring you SafePay, so you can **keep your staff safe** with proper **social distancing**.

THE PERFECT FEATURE FOR CURBSIDE CHECK-IN OR ONLINE ORDERS.

SafePay lets you accept payments on your website so your staff doesn't have to touch or collect credit cards, and so patients can make payments even when you're closed.

SAFEPAY

APPOINTMENT SCHEDULER

Allow website visitors to easily schedule a Virtual Consultation from your website and pick an available appointment slot with our Calendly integration. Calendly allows you to collect payment at the time of booking, if necessary.

FEATURES:

- Compatible with your calendar:

Calendar

- Easily collect payment at time of booking
- Integrates seamlessly with your website

WORK FROM HOME TOOL

Slack allows your staff to be productive no matter where they are working from. Eliminate group email chains and repetitive individual notifications. This popular business tool is used by over 100,000 companies.

FEATURES:

- Works from any device
- Receive notifications on your phone 
- Eliminate email chains
- Search history of all communication and training

CONNECT WITH YOUR COMMUNITY

Nextdoor is the neighborhood hub for connecting and exchanging information, goods, and services locally. It's where neighbors go to stay informed, plan get-togethers, and help each other in their everyday lives. If you've heard of people buying elderly neighbors groceries, it's likely through Nextdoor.

FEATURES:

- Get a public Business Page that local neighbors can see
- Communicate with your local community and neighborhood
- Let people know you are open and available to help
